Upcoming Events

**Typhoon Haiyan Relief Action by Tenby Miri**

Though we are a relatively small school it is still important that we encourage awareness of world issues and current affairs with students and the community. The tragic events affecting the central Philippines after the sweeping destruction of Typhoon Haiyan, almost ‘on our doorstep’ is such an occasion.

On Friday afternoon we had a special assembly showing some selective photos and video of the conditions the families are facing. In the end we asked students and staff to consider bringing to school a new or nearly new article of clothing OR a small soft toy that we could send to the children who have lost what little they may have had. They were asked to consider this as an act of kindness for others who have lost so much and to talk about it with their families and bring their offerings through the next week.

Some of our Class Parents are also thinking of other actions we might undertake: the first idea was for Mr Phillip to shave his moustache if they raised over RM1000 – for the first time in over 15 years – to which he’s agreed! More ideas such as the successful ‘shoebox collection’ done last year for the Ten Ringgit Charity and a non-uniform day might well occur in the coming weeks as the recovery will be a long-term process.

**General Notices and Information**

**Buggies arrive in school!** We have received the pre-ordered buggies which are designed to allow several functions: for visitors on hot days to visit the site dropping off at key points; one for our nurse to visit areas to collect students who might have difficulty in making it to the medical room and finally for carriage of large/unwieldy items for Mr Zamri and his team.

**PARENT SURVEY 2013-2014**

All parents are asked to dedicate a few minutes from their schedules to complete it so that we have the truest representation of the Tenby Community both as an individual school and as a group. Thank you, Phillip

**Primary Playground Phase II Update**

After a successful meeting with the designer on Friday morning, the proposed designs have been given the go-ahead and the construction of Phase II will commence in the following weeks for its use from the start of Term 2 in January.
