In Sekolah Sri Tenby, we nurture children with a personal touch. During the homeroom periods, homeroom teachers interact with the children to touch on good practices, good values, positive disciplines and life skills. We aim to produce independent learners who are able to excel in the changing world.

Sekolah Sri Tenby is a unique school which provides the ideal integrated international environment for our children to interact with their peers during school-wide activities, assemblies and break times.

Appreciation Tree

This tree was created by our pioneer group of Form 2 students in 2009 as a gesture of appreciation to their teachers on Teachers’ Day. It was made from recycled materials with the guidance of their Art Teacher.

From then on, this tree is used as an avenue for students to express their appreciation as well as to display creative students’ work. Their expressive thoughts are often transferred onto beautiful cards which adorn the tree.

Academic Terms
Term 1: January - April
Term 2: April - August
Term 3: August - November

* Term breaks at the end of each term
* Mid Term break for 1 week in June and 1 week in October

A United World At Peace - Through Education

SEKOLAH SRI TENBY
Malaysian School Curriculum in an International Context

Nurturing Children - A Personal Touch
Our Curriculum Unique Features
❖ Fun and effective approach to learning and acquiring knowledge
❖ Active teaching to engage students in the learning process
❖ Acquisition of good learning, social awareness, organizational and soft skills
❖ Extra emphasis in English through listening, reading, writing and speaking
❖ Speech & Drama lessons incorporated in Standard 1 to 3 English lessons
❖ Learning of three languages in the classroom - English, Bahasa Malaysia & Chinese (Mandarin)
❖ Teaching of Science & Mathematics in English
❖ Bilingual approach to learning Science & Mathematics for KSSR using Tenby’s own Activity Books
❖ Mastery approach to enhance students’ understanding
❖ Good emphasis on self-evaluated and experiential learning
❖ Focus on promoting effective communication
❖ Encouraging students to be ICT savvy through the international ICT curriculum to maximise learning resources and skills
❖ Introduction of robotics in the curriculum
❖ Availability of a Sixth Form programme (CIE A Levels) on the same campus

Our Achievements
1. Excellent UPSR/PMR/SPM results
