Message from Campus Principal

I hope everyone had a restful break and is ready for another exciting term at Tenby Schools Setia Eco Park.

It's always a pleasure to see our campus come back to life with the energy and enthusiasm of our students. From engaging lessons and performances to sports fixtures and special events, there will be plenty of opportunities for every child to learn, grow, and discover something new this term.

Thank you for being part of our wonderful school community. I look forward to seeing all that our students will achieve in the weeks ahead.

Jeff Ison

Health & Safety Awareness Day

The learning continued with hands-on CPR and AED training, where parents and students gained practical skills that could one day help save a life. Crowds also gathered for an exciting live firefighting demonstration by **Pasukan Bomba dan Penyelamat Sukarela Hulu Langat**, before younger visitors eagerly climbed aboard the fire engine for rides and cooled off with a lively water play session.

Behind the scenes, the event was made possible through the generous support of sponsors including Yogood and YumEarth, alongside parents who contributed items for the goodie bags and dedicated staff volunteers whose hard work ensured the day ran smoothly from start to finish.

From learning how to save a life to climbing aboard a fire engine, Health & Safety Awareness Day at Tenby Schools Setia Eco Park offered something for every member of the family.

More than 200 students, parents, staff and members of the wider community gathered on campus for a morning dedicated to health, safety and wellbeing. Throughout the event, families explored a variety of interactive booths offering basic health screenings, eye examinations, spine assessments, dental consultations and breast health awareness. These services were made possible through the support of community partners, including **Top Vision, Spineworks, Diamond Dental Setia Alam, Kea Smiles, Columbia Asia Hospital Klang, Yogood and BCWA**.

While many visitors took the opportunity to learn more about their health, others chose to make a difference by participating in the blood donation drive, demonstrating how a simple act of generosity can have a lasting impact on the lives of others.

Event Highlights

Welcoming the Year of the Horse Across Campus

Lunar New Year is always one of the most anticipated celebrations at Tenby Schools Setia Eco Park, bringing together students, families and staff to welcome the new year with joy, tradition and plenty of festive cheer.

From the moment you step onto campus, the celebrations are impossible to miss. Classrooms were adorned with vibrant decorations, while the Human Resources team transformed shared spaces across the school, creating a warm and festive atmosphere that could be felt in every corner.

The celebrations began with festive assemblies, where the community came together to reflect on the significance of the occasion. One of the sweetest moments came from our Early Years children, whose cheerful performance delighted the audience and set the tone for the celebrations ahead.

The excitement continued as the energetic lion dance made its way across campus, drawing students and teachers out of their classrooms to follow the procession and share in the festive spirit.

Families also joined in the celebrations, with the traditional yee sang tossing becoming one of the day's highlights. Filled with laughter, well wishes and plenty of memorable photos, it was especially meaningful for international families experiencing Lunar New Year in Malaysia for the first time.

“My favourite part was the lion dance. It was so cool!”
Enzo, Year 1E

Across campus, students immersed themselves in a variety of cultural activities. The Parent Association organised a Chinese calligraphy competition, while the Mandarin Department introduced the art of lacquer fan making. Sekolah Sri Tenby added its own cultural touches with a graceful guzheng performance and a traditional couplet writing session. To round off the celebrations, Year 11 students hosted a series of traditional games, bringing laughter and friendly competition to the festivities.

More than a celebration, Lunar New Year at Tenby was a wonderful reminder of the school's diverse community, where different cultures are embraced, traditions are shared, and meaningful connections are made together.

Scan to watch the Early Years Assembly

The Legacy Continues: SPM Excellence

The first families arrived well before the official start time, filling the foyer with smiles, conversations, and excitement. For many students, it was their first chance to reunite with friends since completing their SPM examinations. There were hugs, laughter, and plenty of catching up as teachers, parents, and classmates gathered before the ceremony began.

For a little while, it felt like any other school gathering.

Then, as everyone took their seats, the excitement turned into anticipation.

Opening the ceremony, Ms. Saw reflected on the students' journey over the past five years, reminding everyone that while the results mattered, so did the resilience, determination, and growth that brought them to this moment.

Then came the announcement everyone had been waiting for.

As the SPM 2025 results were revealed, the hall erupted with cheers and applause. Students embraced one another, proud parents captured every reaction on their phones, and teachers celebrated alongside the cohort they had supported throughout their secondary school journey.

This year's results continued Tenby's strong tradition of academic excellence, with **26%** of students achieving **straight A's**—a reflection of the hard work and perseverance shown by the entire cohort.

The celebrations continued with an awards presentation recognising both top achievers and students who had made remarkable progress since their trial examinations. Every award celebrated a unique journey and the effort behind it.

Among those watching were our current Form 5 students, getting a glimpse of what their own Results Day could look like next year.

“

It's been amazing to see my child grow in confidence and start putting himself out there more.

Mrs Ding, Tenby Parent

”

The morning ended with a group photo, bringing together students, parents, teachers, and alumni to celebrate not just the results, but the journey they had shared.

Because while the grades are worth celebrating, it was the friendships, support, and memories made along the way that truly defined the day.

Going Bananas for Book Week

Scan to
watch Event
Highlights!

Ever dreamed of seeing Greek gods or Harry Potter characters in real life? Book Week made it happen!

Throughout the week, our campus was filled with activities that brought stories to life. Senior students and student librarians visited younger year groups to share stories, building confidence while inspiring a love for reading.

The highlight for many was the Book Character Dress-Up Day. Students and teachers arrived as their favourite characters, from Harry Potter to Greek gods — with a surprising number of bananas making an appearance too!

Students also enjoyed browsing the book sale, discovering new stories to take home.

Book Week was a wonderful reminder that reading is more than turning pages — it's about imagination, creativity, and bringing stories to life together.

Panasonic Stadium came alive early as students arrived in their house colours, filling the venue with cheers and excitement ahead of Sports Day.

The day began with an energetic drum performance before students competed across a range of track and field events. From sprints and relays to high jump, javelin, and discus, every event drew enthusiastic support, with the running races and tug-of-war earning some of the loudest cheers of the day.

Even a spell of rain couldn't dampen the atmosphere. While everyone waited for the weather to clear, our teacher emcees kept spirits high with music and plenty of energy.

A huge thank you to our PE and academic teams, student sports leaders, and parents who helped make the event such a success.

Congratulations to Dragon House for claiming this year's title after a day filled with teamwork, determination, and outstanding school spirit.

Video!

Secondary Sports Day

Our Annual Charity Carnival Returns

One of the biggest highlights of the school year, our annual Spring Charity Carnival returned with another unforgettable day packed with excitement, entertainment, and community spirit.

The campus came alive with colourful stalls, delicious food, exciting games, handmade crafts, collectables, and student-led activities as students, parents, staff, alumni, and visitors joined in the fun. Everywhere you looked, there was something new to explore, creating a lively atmosphere from start to finish.

While the carnival was filled with fun, it also reflected an important part of life at Tenby. Through the International Schools Partnership (ISP) **International Learning Opportunities for Students (ILOs)**, students learn that even small actions can make a big difference.

As with every Spring Charity Carnival, all proceeds were donated to **Street Child United (SCU)**, an organisation that helps street-connected children around the world access education, protection, and brighter opportunities. Every game played, every treat enjoyed, and every purchase made helped support this shared mission.

The stage was just as busy, with fantastic performances by students and teachers keeping the crowd entertained throughout the day. Meanwhile, the ever-popular dunk tank once again stole the show! Teachers—including Campus Principal Mr Jeffrey Ison—bravely volunteered to take the plunge, earning plenty of cheers, laughter, and soaked shirts in support of a meaningful cause.

A huge congratulations to our A Level students, who worked tirelessly behind the scenes to organise the entire event. From planning the programme and coordinating vendors to keeping everything running smoothly on the day, they showcased outstanding leadership, teamwork, and initiative.

A big thank you to our staff, parents, vendors, volunteers, and everyone who came along to support the carnival. Together, we created another incredible day filled with laughter, generosity, and memories that will last long after the stalls packed up.

“Together, we raised
RM12,374”

What's New in Tenby?

01 | Smarter and Safer School Journeys: New Transport Provider

Mornings can be busy, and getting children to school is often one of the biggest parts of the daily routine. That's why we're always looking for ways to make the school journey safer, smoother, and more convenient for our families.

Our new transport provider, **Haanusha Travel & Tour Agency**, brings nearly a decade of experience in student transportation, working closely with schools and families.

Key Features:

- CCTV Cameras
- GPS Tracking
- Experienced Drivers
- On-Ground Support Staff

Each journey is carefully looked after — so parents can feel confident and children can arrive at school safely and comfortably each day.

about the
service

01 | Tenby International Primary – Coding Class

Our Year 1 students have been taking their first steps into coding—and discovering just how much fun it can be!

Using **Blue-Bots**, students work together to programme their little robots to move around a map. It takes lots of thinking, teamwork, and a bit of trial and error. Sometimes the robot doesn't go where they expect—but that's all part of the learning! They simply adjust their plan and try again.

One of the best parts is watching students solve problems together. You'll hear them discussing ideas, helping one another, and celebrating every successful route.

While it feels like play, they're developing valuable STEM skills such as problem-solving, sequencing, logical thinking, and collaboration—all while building confidence with every challenge.

03 | Learning Together: English Lessons for Parents

Learning doesn't stop with our students—it extends to our parent community too.

Led by our NEP teacher, Dr Denise, our Parent English Classes have become a welcoming space for parents to build their English skills and confidence. With over 20 parents across two classes, every session is filled with conversation, encouragement, and plenty of shared learning.

The lessons are practical, interactive, and easy to follow, giving parents the confidence to use English in everyday situations.

Along the way, they also gain a better understanding of how English is taught in school, helping them support their children's learning at home.

The classes have become a wonderful way for parents to learn together, support one another, and feel more connected to the school community.

School Learning Moments to Remember!

Early Years

01 | Aquaria KLCC: Early Years Trip

Sharks, stingrays, turtles, and plenty of excited faces! Our Early Years students swapped the classroom for an underwater adventure at Aquaria KLCC as part of their EYFS topic on sharks.

It didn't take long for the excitement to begin! As they walked through the underwater tunnel, there were lots of pointing fingers, wide smiles, and excited shouts of "Shark!" whenever one swam by. Along the way, teachers introduced the different sea creatures they encountered, helping students identify each one and connect what they were seeing with what they had been learning in class.

A huge thank you to our teachers for making the trip such a fun, safe, and memorable experience.

It was a day full of curiosity, discovery, and plenty of unforgettable moments.

02 | The Legend of Nian: An Early Years Celebration

Our Early Years assembly, The Legend of Nian, was definitely one of the cutest events of the term!

The children took to the stage with huge smiles and lots of confidence, performing fan dances, lantern dances, kung fu, pom pom, and ribbon routines. It was great to see every group have their chance to shine, and you could tell how proud they were of all the hard work they'd put in.

The performance ended with everyone coming together for one final song, which earned a big round of applause and plenty of "aww"s from the audience.

Parents were busy cheering, clapping, and recording every moment, while teachers watched proudly as weeks of practice came together on stage.

A big thank you to all the teachers who helped prepare the children and to the parents who decorated the venue and made the celebration feel extra special.

Scan to
watch the
Video!

03 | EY Sports Carnival: Let the games begin!

Ready, set, go! Our Early Years Sports Day was bursting with excitement from the very first whistle, with laughter, cheers, and lots of happy little faces all around.

From the 100m dash to obstacle courses, Rob the Nest, and tagging games, every activity had the children running, jumping, climbing, and giving it their all. The cheers from friends, teachers, and parents made every race and challenge even more exciting.

The best part was seeing every child join in with confidence. There were high-fives, happy giggles, and lots of proud "I did it!" moments as they crossed the finish line and completed each activity.

It wasn't about who came first. It was about having fun, trying something new, and celebrating every little achievement together.

School Learning Moments to Remember!

International Primary

01 | Cooking Up Fun in Year 1

Things got a little busy (and very fun) as our Year 1 students rolled up their sleeves for a cooking workshop.

As part of their IPC topic Our Five Senses, Binkboo Kids World led a hands-on session where students made their own mini pizzas and mac and cheese using mini tools. There was lots of mixing, spreading, and of course, curious little tastes along the way as they explored different textures, smells, and flavours.

Parents joined in too, which made it even more special. You could see the teamwork, the laughter, and those proud little moments when everything started coming together.

And then came the best part — eating what they made. Sitting down with their own creations, the smiles said it all.

A simple activity, but one that turned learning into something they could really see, feel, and taste.

02 | Tenby's Got Talent Is Back!

If you were in the audience, you probably know what we're talking about. Every performance brought something different, and the crowd was loving every minute of it.

Students from Year 1 to Year 6 took to the stage with dance routines, singing, comedy acts, and plenty of surprises along the way. Just when you thought you'd seen it all, the next act would come on and keep the excitement going.

The audience played a big part too. Every performer was welcomed with loud cheers and applause, creating an atmosphere where everyone felt supported.

Behind the scenes, our student councillors and prefects kept the show running smoothly, helping performers get into place and making sure everything stayed on schedule.

By the end of the show, it wasn't about who performed best. It was about having the confidence to step onto the stage, share your talents, and enjoy the experience.

03 | Exploring Programming

This term in Computing, students from Year 1 to Year 6 have been exploring programming through hands-on, creative projects.

It begins in Year 1, where students bring simple animations to life using ScratchJr. By Year 2, they are starting to think more like programmers, sequencing instructions and learning how to fix and improve their work.

As they move through Years 3 to 5, students take on more complex challenges, creating maths programmes, quizzes, and interactive games while experimenting with ideas and refining their code.

By Year 6, they are designing and building their own multi-page websites using HTML. Along the way, students are developing confidence in problem-solving, thinking logically, and turning their ideas into something they can see and share.

School Learning Moments to Remember!

International Secondary

01 | Year 10 Baking Workshop

Our Year 10 International Curriculum students recently rolled up their sleeves for a hands-on baking workshop with a chef from **Culinary Arts Academy Switzerland**.

The session began with a live demonstration of how to make a lemon meringue parfait. As the chef shared tips and techniques, students asked questions and picked up ideas before it was their turn to get started.

Working in small groups, they recreated the dessert from scratch, preparing each layer before bringing everything together as one final creation. It was a great exercise in teamwork, communication, and problem-solving, with plenty of excitement along the way.

By the end of the session, students left with more than just a delicious dessert—they took home new skills, fresh ideas, and plenty of great memories.

02 | FOBISIA Student Leadership Conference

Our students recently attended the FOBISIA Student Leadership Conference 2026, where they joined students from schools across the region for an exciting programme of workshops, debates, performances, and leadership activities.

One of the biggest highlights was hearing from Malaysia's pride and squash legend, **Nicol David**, and adventurer **Rob Lilwall**, whose inspiring stories encouraged students to think differently about leadership, resilience, and stepping outside their comfort zones.

There was plenty of sharing, questioning, and exchanging ideas throughout the conference. Just as importantly, our students built new friendships and connected with peers from different cultures and backgrounds.

They returned to Tenby with fresh ideas, greater confidence, and lots of inspiration to make a positive impact in our school community.

Scan to watch the Video!

03 | Tenby Talks: Building Confidence Through Stories

Tenby Talks is back—and this year, it was bigger than ever!

Organised by **The Learning Centre (TLC) team**, Tenby Talks provides a supportive platform for **NEP and EAL learners** to develop their English communication skills while building confidence through public speaking.

Students took part in two rounds of presentations. The first, held during Book Week, saw them sharing their favourite books. In the second, they introduced a famous dish from their home country, celebrating their cultures while developing their speaking skills.

To prepare, students researched their topics, created posters, and presented their ideas to teachers and classmates, who stopped by their booths to listen and leave words of encouragement.

“My child has only been at Tenby for a year, and her English has improved so much.”

Mrs. Park, Tenby Parent

”

School Learning Moments to Remember!

National Primary

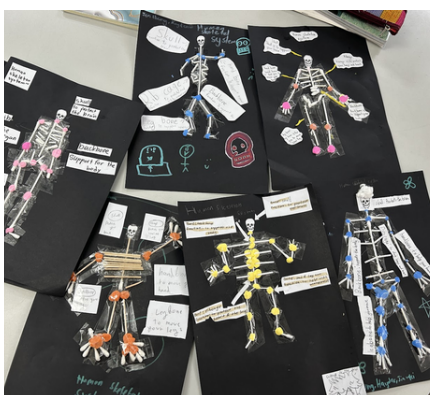

01 | Science Lessons That Came to Life

Science lessons have been getting a lot more hands-on for our Standard 4 and 5 students!

Instead of learning only from textbooks, students have been exploring science through experiments, investigations, and activities around the school. They've been taking measurements, collecting data, and discovering how changing different variables can affect the results.

In another lesson, students designed their own skeletal system models, learning about different types of bones and how they work together to support the body. Building the models made the lesson even more engaging and helped bring the topic to life.

From testing ideas to making discoveries, every lesson has encouraged students to stay curious, ask questions, and learn by doing.

02 | Upper Primary Camp

Our Standard 4 to 6 students swapped their usual routine for an exciting weekend of adventure at this year's school camp.

Over two days, they took part in a variety of activities led by teachers and external facilitators, including knot tying with bamboo, team-building challenges, sports, and first aid.

The knot tying sessions introduced practical camping and survival skills, while the first aid activities gave students the chance to respond to mock emergencies by applying bandages and learning basic first aid techniques.

Beyond learning new skills, the camp was full of teamwork, encouragement, and new friendships. Students stepped out of their comfort zones, worked together to solve challenges, and built confidence with every activity.

By the end of the weekend, they returned home with unforgettable memories, stronger friendships, and plenty of stories to tell.

03 | Learning Adventures in Nature

Our Lower Primary students swapped the classroom for exciting outdoor adventures filled with hands-on learning!

Some visited a farm, where they ploughed fields, harvested vegetables, and fed animals while learning about nature and sustainable living. Others explored the outdoors by discovering forest layers, learning about different animals, and even trying fishing with DIY equipment.

Every activity encouraged students to explore, ask questions, and learn through experience while building teamwork, confidence, and problem-solving skills.

With muddy boots, big smiles, and plenty of new memories, it was a fantastic adventure beyond the classroom.

School Learning Moments to Remember!

National Secondary

01 | Music Fest

Our termly Music Fest was back, and it was another fantastic evening of great music and amazing performances!

From beautiful piano pieces like Clair de Lune to songs from Hamilton, pop, indie rock, R&B, and even classics like Careless Whisper, every performance brought something different and kept the audience entertained.

It was great to see students performing with so much confidence and enjoying every moment on stage. The bands also impressed with their teamwork and energy, making the atmosphere even more exciting.

One of the biggest highlights of the night was an original song written and performed by Ariff, making the event even more memorable for everyone who was there.

02 | Duke of Edinburgh (DoE): Silver Qualifying Expedition

Earlier this year, 14 of our students headed to the cool hills of Cameron Highlands with Mr Hakim for their Duke of Edinburgh (DOE) Silver Qualifying Expedition—a three-day adventure that challenged them in more ways than one.

This wasn't your typical school trip. Students carried everything they needed on their backs, cooked their own meals, navigated using maps and compasses, and tackled long hikes through challenging terrain. Every day brought a new challenge, pushing them to think on their feet, stay determined, and work together. There were steep climbs, tired legs, and moments when the weather didn't quite go to plan—but every challenge was faced as a team.

The best part was seeing the teamwork along the way. Students encouraged one another, solved problems together, and celebrated every milestone, showing just how much they had grown since their practice camp.

By the end of the expedition, they returned with much more than unforgettable memories. They came home with greater confidence, stronger leadership skills, lasting friendships, and a real sense of achievement after completing this important milestone in their DoE journey.

03 | NISMUN 2026 Conference

Nine of our students recently took part in NISMUN 2026, joining students from across the region for 3 days of debates, discussions, and leadership.

Representing different countries across five United Nations councils, our delegates stepped into the shoes of diplomats as they debated global issues, shared ideas, and worked together to draft resolutions. Along the way, they built confidence, sharpened their public speaking skills, and made new friends.

The conference didn't get off to the smoothest start, with heavy traffic causing the team to miss the opening ceremony and first committee session. But instead of letting it dampen their spirits, our students stayed positive, adapted quickly, and made the most of every opportunity.

A special thank you to **Dayna (Form 5)**, our **MUN Club advisory senior**, for mentoring and supporting the team throughout the conference.

Congratulations to **Jaybriel Cheng (Form 5)** for receiving the **Honourable Mention Award** in the Social, Humanitarian and Cultural Committee (SOCHUM).

NISMUN 2026 was an unforgettable experience that challenged our students to think critically, speak with confidence, and grow as future leaders.

School Learning Moments to Remember!

Pre-University (A-Level)

01 | Tenby In A Pod: What's life like after Tenby?

University life, A-Levels, friendships, and growing up — these were just some of the topics shared in a recent episode of Tenby In A Pod, where A-Level alumni Farisya and Aiyana returned to campus for a catch-up session with Head of Pre-U, Mr Moss.

In this episode, we'll hear about their experiences in the national and international pathways, the memorable moments, challenges, and lessons learned during their time at Tenby. From classroom experiences and leadership opportunities to friendships built along the way, the episode gives us a heartfelt glimpse into their school journey.

Farisya and Aiyana also spoke honestly about their A-Level experience and how it helped them build confidence, independence, communication skills, and time management — skills that continue to support them in university today.

The conversation gave students an honest look at life after school, covering everything from settling into university and balancing new responsibilities to making new friends and embracing new opportunities.

If you're a student—or a parent with a child who's curious about A-Level life at Tenby and how it prepares students for the transition to university—this is an episode you won't want to miss.

Filled with laughter, memories, and honest reflections, the episode was a meaningful reminder that the Tenby journey continues long after graduation.

**Tune in for the
podcast episode
on Spotify**

02 | Why Students Stay For A-Levels

For many students at Tenby Schools Setia Eco Park, the next step after IGCSE or SPM is a natural one—continuing their journey with A-Levels on our campus.

Our A-Level programme allows students to focus on the subjects they enjoy while preparing for university in Malaysia and around the world. Staying at Tenby also means learning in a familiar environment, supported by teachers who know their strengths, ambitions, and potential.

“

I plan to study in the UK, and A-Levels is one of the most recommended pathways.

Yashveer, Year 11 Student

”

“

The quality of teachers here is very good. Some of them were past examiners, and that gives me confidence to trust their guidance.

Ilyssa, Year 11 Student

”

If your child is approaching the end of their IGCSE or SPM journey, we'd love to share more about what A-Level life at Tenby has to offer. Simply get in touch with our Admissions Team or Mr Moss to find out more.

**Hear from
our students**

Future Pathways

Guiding Students Toward Their Next Steps

Exciting Next Steps for Our A-Level Students

Exciting news has been rolling in for some of our A-Level students, with university offers arriving from around the world!

It's been a joy to celebrate these milestones with our students as they take another step towards their future. Behind every offer are months of hard work, determination, and a genuine passion for learning.

Beyond that, they've also grown in confidence, resilience, and independence—qualities that will continue to serve them well at university and beyond.

A huge thank you goes to our teachers and families, whose encouragement and support have helped our students every step of the way.

Congratulations on this well-deserved achievement, Daniel, Finnian, and Renee. We can't wait to see where your university journey takes you!

Strengthening Future Pathways Through Our Partnership with UKEC

Preparing for university is an exciting journey, and having the right guidance along the way can help students feel more confident about the future. To further support students and families in planning their next steps, we are excited to introduce our partnership with UKEC, an international education consultancy experienced in overseas university applications and future pathways guidance.

Through this collaboration, students will have access to:

- Personalised university application guidance
- Support with writing personal statements
- Scholarship advice
- Visa application assistance
- Pre-departure guidance before studying overseas
- Ongoing support as they transition into university life
- UCAS application fee waiver for students applying to UK universities through UKEC

This collaboration works alongside the support already provided by our Future Pathways team, giving students even more access to expertise, insights, and personalised guidance as they explore their university options and future aspirations.

Together, we look forward to helping students approach their future pathways with greater confidence, clarity, and opportunities.

iSP International Opportunities

Global Learning and Connections for Every Student

Checkmate! Young Chess Masters take on ISP Global Finals Next

After months of strategy, focus, and teamwork, our students officially qualified for the ISP Global Finals under the ISP ILOS Chess Masters programme.

Both our **Junior and Senior teams** will now go on to compete against students from ISP schools around the world — an exciting opportunity to challenge themselves, meet new peers, and represent the Tenby SEP community on a global stage.

Throughout the competition journey, students strengthened more than just their chess skills. They learned how to stay calm under pressure, think critically, adapt quickly, and support one another as a team.

The ISP ILOS Chess Masters programme gives students the chance to connect with young chess players across the ISP network while building confidence through healthy competition and international experiences.

We are incredibly proud of how far our students have come and can't wait to cheer them on at the global finals.

More Than Just A Wall: Eco Changemakers Community Mural

What started as a simple idea has grown into one of the most colourful spots on campus!

As part of the **ISP ILOS Eco Changemakers programme**, our students worked together to turn a blank wall into a vibrant mural that now supports outdoor learning.

It all began with a drawing competition, where students shared their ideas for a **sustainability-themed mural**. The best ideas were combined into one final design featuring the water cycle, pollination, composting, renewable energy, and healthy eating.

The project wasn't just about painting. Our students took on different responsibilities, helping to plan the design, organise materials, think about safety, and even share updates during school assemblies.

Over six days, the mural came to life with support from teachers, parents from the Tenby Schools Parent Association (TSPA), maintenance staff, secondary student volunteers, and local street artist Mr Lee.

Today, the mural is used during **Science and IPC lessons**, bringing learning beyond the classroom and reminding students that their ideas really can make a difference.

And the journey doesn't stop here. The Eco Changemakers team is already working on the next project—transforming the school's edible garden into another exciting space for hands-on learning!

about the mural

Tenby Eagles

Flying High in Fobisia Games 2026

Thailand, Here We Come!

A team of 24 students from Tenby Eagles travelled to Thailand for the FOBISIA U13 Games 2025, where they competed against eight schools from across the region.

After days of exciting competitions, they returned home with an amazing **23 medals** — 13 gold, 4 silver, and 6 bronze—and an impressive **3rd place overall**.

All-Round Athletes in Action

Throughout the games, students competed in a wide range of events including long jump, shot put, discus, high jump, javelin, triple jump, track events, swimming, football, and basketball.

Our swimmers brought home 2 silver and 1 bronze medal, while our girls' football and girls' basketball teams both fought hard to secure 1st place finishes in their categories.

One of the most exciting parts of FOBISIA is that students are required to participate in four different sports throughout the competition. It pushed them to challenge themselves, adapt quickly, and cheer each other on throughout the games.

Record-Breaking Moments

The competition also saw some fantastic new records being set by our athletes:

- Aleah — Long Jump: 4.66m
- Jiya — Discus: 25.12m
- Aleah — 300m: 45.46s
- Aleah — Triple Jump: 9.20m

Hard Work Behind the Medals

Behind every medal were months of training, dedication, and late afternoons. Our students worked hard to balance practices alongside their studies and school commitments, showing incredible determination throughout the journey.

A huge thank you also goes to our sports team and coaches for training, guiding, and caring for the students throughout the trip in Thailand. Their support helped make this experience such a meaningful and memorable one for our athletes.

Congratulations to all our athletes for representing Tenby Schools Setia Eco Park with such passion, resilience, and team spirit at FOBISIA U13 2025!

Amazing Achievements Beyond the Classroom!

Every competition represents hours of preparation, practice, and courage. We celebrate our students not only for the awards they achieved, but also for stepping forward to take part in academic and sports competitions with confidence and curiosity, even when the challenge felt unfamiliar.

Our heartfelt thanks go to the teachers and coaches who guided and supported them with care throughout the journey.

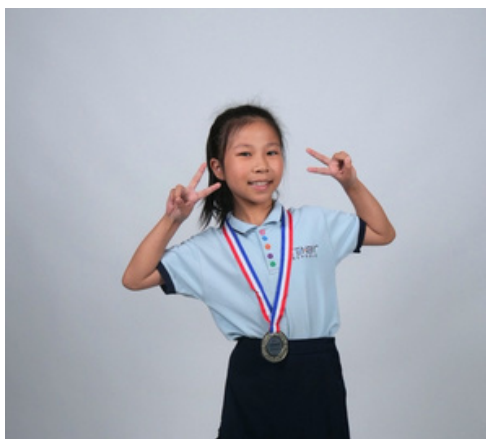

To all our students, may these experiences encourage you to keep growing, stay curious, and believe in yourselves. Every step forward you take truly matters.

A Penny For Your Thoughts

Our Primary students explored so many **EXCITING** things this term!

I like Science!

We learned about push and pull, as well as different types of forces like friction and hydraulic force.

Charlene, Year 6

I like PE!

In Hi-5 Volleyball, we catch and throw the ball instead of spiking and blocking like in regular volleyball.

Zidane, Year 6

I like Art!

We designed a masquerade mask from scratch.

Gizelle, Year 6

I like Maths!

We learned how to calculate the area and internal angles of different shapes.

Community Testimonials

Here's what life in our school looks like, through their eyes

Tenby is not just a workplace — it's where I found care, purpose, and a sense of belonging.

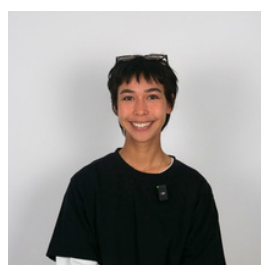

It's also where I discovered what truly gives my work meaning.

Ms Shermalin, Teacher

EAL allows my child to focus on developing his English first, giving him a stronger foundation before moving on to other subjects.

Mr Morita, Year 5 Parent

I've always loved sports, but coming to Tenby helped me discover a new passion for psychology.

The teachers' passion for what they teach really inspired me to explore science subjects more deeply.

Lydia, 2019 Graduate

Stories That Shape Our School

Written by people who helped make Tenby a better place

Aziz, Facilities Staff

“

Tenby is an amazing place to learn and grow, not just for students but for staff too. It taught me to take greater responsibility and always go the extra mile.

”

I joined Tenby in 2009, when the campus was still very new. I remember being impressed by the buildings and facilities, which felt modern and well-designed for learning. It was also my first experience working in an international school, so everything felt exciting and different. Seeing expatriate teachers and students from diverse backgrounds sharing the same space opened my eyes to a new environment and way of working.

Over the years, I have had the privilege of watching both the campus and the community grow. When I first joined, only Phase 1 had been completed, which was essentially up to the swimming pool area.

Facilities that are now familiar parts of the campus, such as the tennis courts, Expressive Arts Block, International Primary Block, and grandstand, were only added later as part of Phase 2.

In many ways, I have grown alongside the school. When I first joined, English was not my strongest language, but working with colleagues, students, and parents from different backgrounds gave me the opportunity to practise every day. Over time, I became more confident communicating in English, including with our expatriate teachers.

My role has also expanded over the years. What began as facilities maintenance now includes supporting PC-related issues, managing ticketing systems, handling emails, and mentoring new facilities staff during their first two months on the job.

I enjoy learning new skills and taking on challenges. One recent example was supporting STEAM Fest 2026, which required coordinating multiple venues across campus and ensuring everything was ready on time—including setting up 300 chairs in MPH2.

Are there any moments or interactions on campus that have left a lasting impact on you?

Throughout my time here, there have been many lessons that have stayed with me. One of the most memorable came from our former CEO, who used to hold weekly Friday meetings with all staff.

These sessions were a chance to share updates and discuss what was happening around the school, but they also taught us the importance of being proactive. One quote I still remember today is,

“Everything in place must be functional.”

”

As someone in Facilities, that message resonated with me because the campus environment is often the first thing people notice when they arrive.

He also introduced us to what we called the 1-3-7 rule. If a facility issue arose, we should investigate and try to resolve it within one day. If that wasn't possible, it should be solved within three days. If external support is needed, it should be escalated and completed by a vendor within seven days. It was a simple system, but it taught me the importance of responsiveness, accountability, and taking ownership of my work.

Fun Fact About Aziz

During Health & Safety Awareness Day 2026, Aziz stayed back after the event to rescue a kitten trapped in the pipes near the canteen. When the frightened kitten refused to come out, he got creative—playing a recording of a cat meowing to lure it out and placing cardboard boxes above the drain as a safety net.

Thanks to his patience and quick thinking, the kitten was safely rescued!

What's one memorable story you'll always remember about Tenby Schools Setia Eco Park?

One moment I will always treasure was receiving the ISP Above and Beyond Award alongside Ms Rozi from the National School. The award recognised our efforts to go the extra mile in supporting the school, and it was a proud moment for both of us.

After spending so many years at Tenby, I genuinely care about the school and take pride in maintaining its standards. Whenever contractors come onto campus, I make sure work is completed properly because I want the school to always look its best. Some people may see me as strict, but I believe it comes from a sense of responsibility and commitment.

At the same time, one of the biggest lessons I have learned is that everyone has their own way of working. Over the years, I have come to understand the importance of balancing high standards with effective communication, and learning how to work with different people while striving towards the same goal.

Looking back on my journey since 2009, I am grateful for everything Tenby has given me. The school has not only helped me develop professionally, but has also taught me valuable life lessons, challenged me to grow, and given me opportunities to continue learning. Watching Tenby grow over the years has been a privilege, and I am proud to have been part of that journey.
